

Farepay

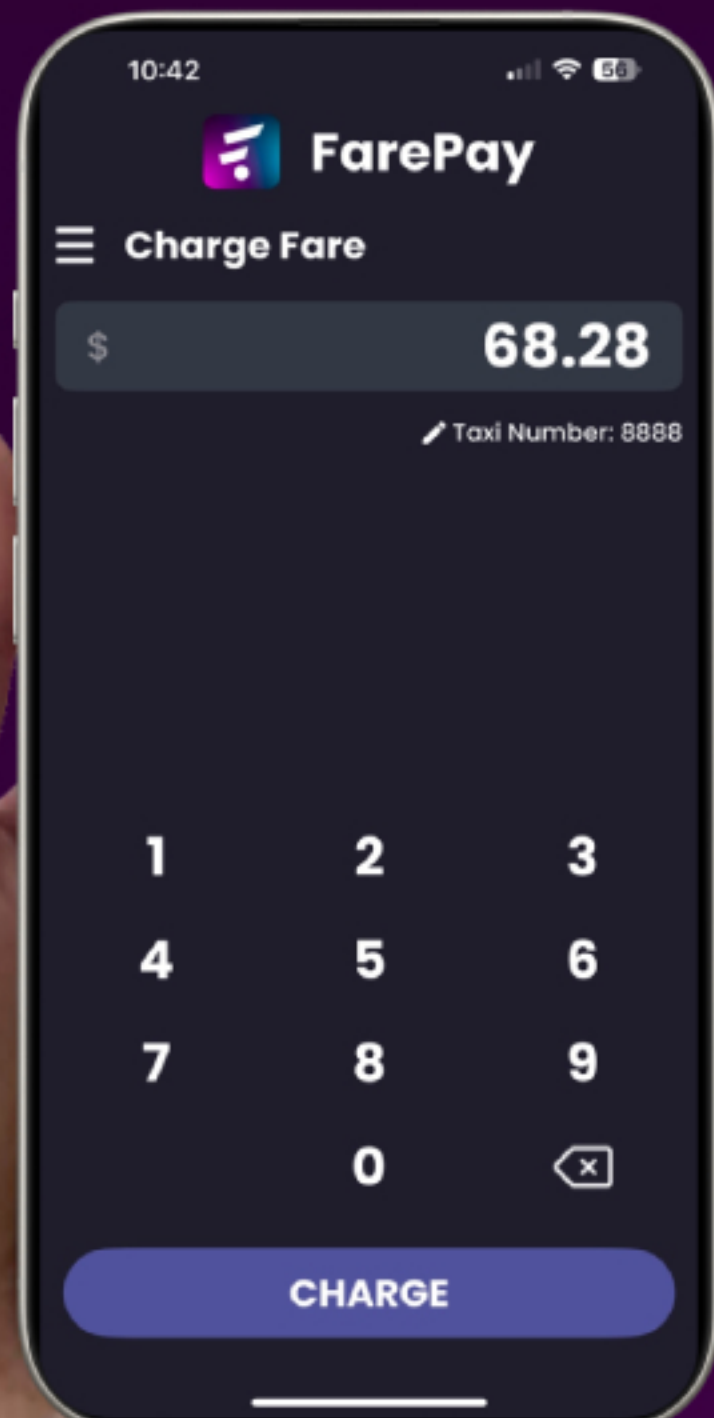

How to **tap** to pay on **iPhone** with **Contactless Cards**

1

Confirm the card has this))) symbol which shows it is a Contactless Card

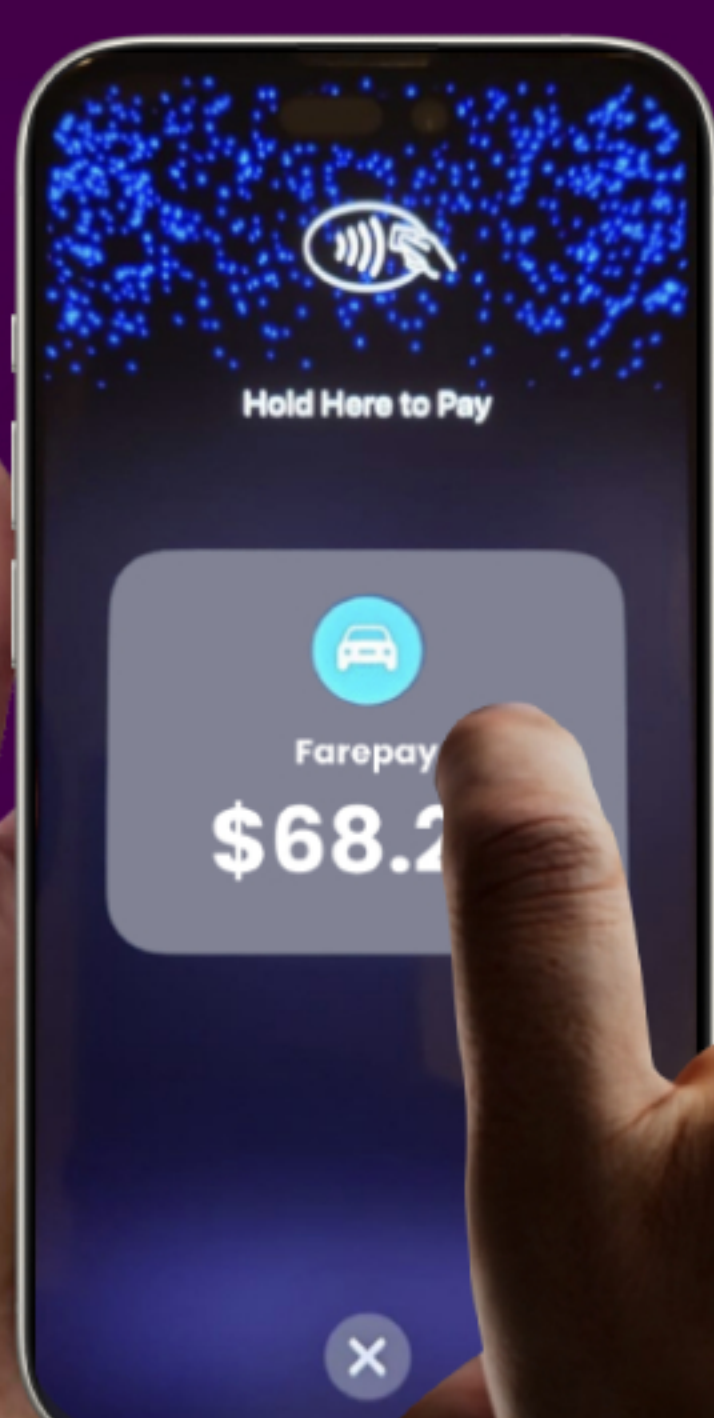

2

Open Farepay to the Charge Fare screen and enter the *metered fare then press Charge

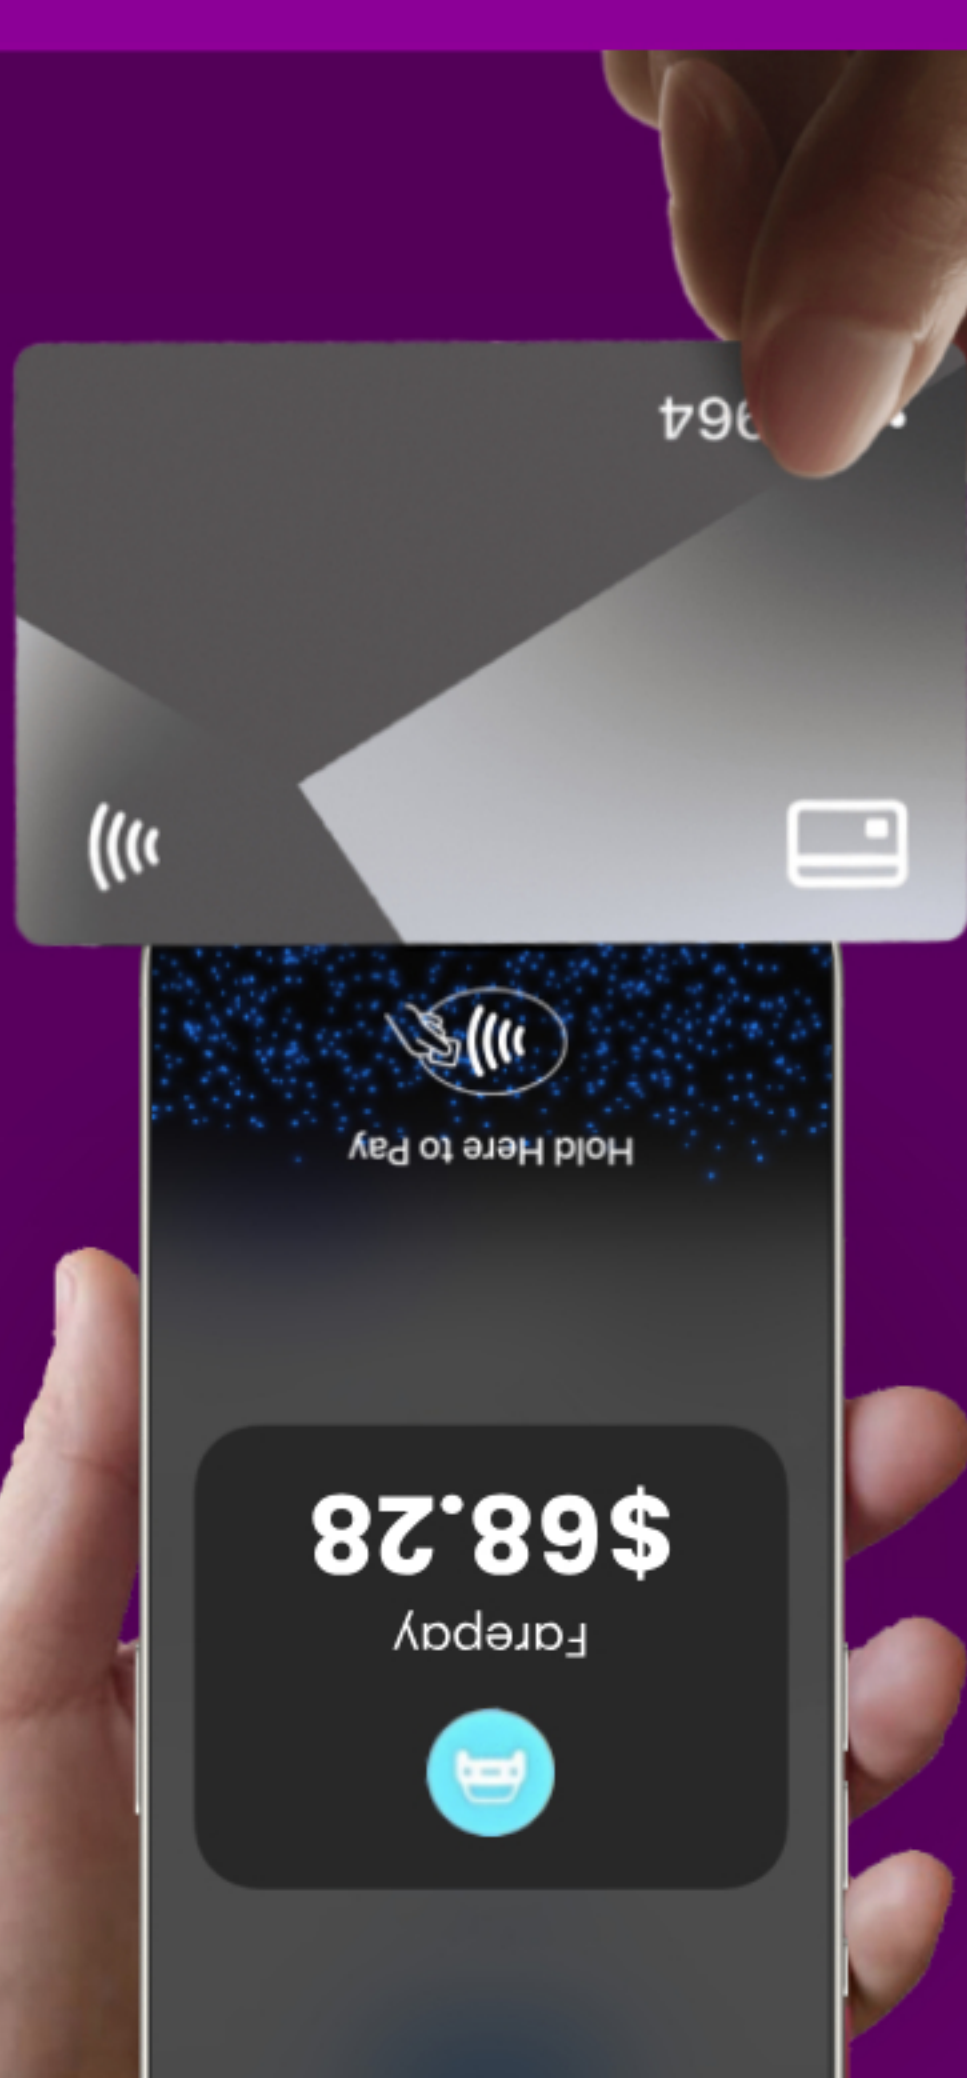

* Fare needs to be higher than \$4.50

3

Tap the amount to rotate the view then present to the customer

4

Ask customer to **hold their card horizontally** above the tap area for **a few seconds**.

*Cards take longer than digital wallets.

* Average card processing time can range between 1-3 seconds

That's it! You're all set :)
